

Cryo Screen Restart Procedure

Find a terminal that is logged in to poltar@poltarah with x forwarding enabled or...

- `ssh -X poltar@poltarah` (password is standard target computer password. Call target on call if you need it.)

Navigate to the Desktop/Screens/ directory

- `cd ~/Desktop/Screens`

Start the cryo gui.

- `./tgtgui`

Start the alarm handler and strip charts using the labeled drop down menu.

- enjoy
