## **Create a New Visualization**

New visualizations are private by default. Use the Visibility field in the editor to make them public (check out step 7).

- 1. Log in to Visuals
  - Learn how to log in
- 2. Click on the Main Menu icon
  - This icon looks like four stacked bars in the top right of the page
  - Main Menu options will unfold
- 3. Click Create
- 4. Click on the visualization you want to make
  - · Click on the different categories to see your options
  - Learn how to choose visualizations
  - The visualization creator will open
- 5. To add your spreadsheet data, click the Google Drive icon next to "Data Source URL"
  - Your Google Drive data will open
- 6. Customize your visualization
  - Find customization options to the left of the visualization
  - Learn more about options at the Visualization Index and at the Common Customization Options
- 7. Choose your visualizations "Visibility" below the preview
  - Switch this to Public if you want everyone to see your visualization; visualizations are Private by default
- 8. Add information about the visualization
  - · Find information fields below the visualization
  - Learn more about adding metadata
  - Learn more at Add Visuals to Knowledge Maps
- 9. Choose a Status for your visualization
  - · Find this option below the title
  - This sets whether the visualization will be saved as a draft or published
- 10. Click Save or Save & Continue
  - . Save & Continue creates the Draft or Published visualization but lets you keep working
  - Save creates the Draft or Published visualization
  - To leave the Visualization after clicking Save & Continue, click Update
  - Your visualization will appear
