

Link to a Text

To link to a Mandala text:

1. Open the text or collection you want to share
 - Learn more with [Search Texts](#)
2. Copy the URL in your browser's address bar
 - This URL links directly to the resource or collection
 - It looks something like <https://texts.shanti.virginia.edu/content/brief-history-ura-village>
3. Make a link using this URL
 - This process depends on the tool you're using
 - Learn how to [add a link in WordPress](#), [add a link in Confluence](#), or [add a link as a UVaCollab Resource](#) (external guide courtesy of ITS)

This works for private and public resources. If your resource is private, however, make sure that your viewers are members of the right collection. Members need to sign in to see the resource.
