

Collection User Roles

To see the roles your members can have, or the permissions each role has within a collection:

1. [Open your collection](#)
2. Click the **Group** tab
 - Find **Group** in the top right corner under the magnifying glass icon
 - The **Members** tab will open
3. Click **Roles (read only)**
 - A table of possible user roles will appear
4. Click **view permissions** next to a role
 - Tasks available to members with that role will appear
