Collection User Roles

To see the roles your members can have, or the permissions each role has within a collection:

1. Open your collection
2. Click the **Group** tab
   - Find **Group** in the top right corner under the magnifying glass icon
   - The **Members** tab will open

3. Click **Roles (read only)**
   - A table of possible user roles will appear

4. Click **view permissions** next to a role
   - Tasks available to members with that role will appear
