Link to an Image

To link to a Mandala image:

1. Open the image or collection you want to share
   - Learn more with Search Audio-Video

2. Copy the URL in your browser's address bar
   - This URL links directly to the image or collection

   - It looks something like https://images.shanti.virginia.edu/image/stream-valley-public-greenway

3. Make a link using this URL
   - This process depends on the tool you're using

   - Learn how to add a link in WordPress, add a link in Confluence, or add a link as a UVaCollab Resource (external guide courtesy of ITS)

This works for private and public images. If your image is private, however, make sure that your viewers are members of the right collection. Members need to sign in to see the image.
