How do I get started?

Check out the guides in [Start in Texts](#). To create an account, you can [log in](#) with your NetBadge credentials. Before you add media, make sure to [create a collection](#) to house it.

How do I add pages to my new texts?

To make a new text, you can follow the [Start a Text](#) guide. Once you've made a text, which makes the title page, you add section pages to the original title. The guide to [texts' structure](#) and [adding sections to texts](#) can help you.

I tried to open a resource, but I get a "You are not authorized to access this page." message. What happened?

The resource isn't open to the general public. Try logging in – you may be a member of its collection. If that doesn't work, you'll need to contact the owner of the resource directly and ask to be made a collection member.

How are people using Texts?

You can explore the "Featured Resources" on the Texts homepage to see how other people are using the tool.

Where can I find more guides to completing tasks in Texts?

This Knowledge Base contains a [full suite of guides](#) for using Texts. You can also refer to the table below if you want to complete tasks quickly.

<i>I just want to read texts.</i>	
You want to:	Use this Knowledge Base guide:
Search for texts	<a href="#">Search Texts</a>
